EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mike Keller on May 13, 2005.

The application has been amended as follows:

In claim 1, line 9, before "token" insert --removable--.

In claim 5, line 12, before "token" insert --removable--.

In claim 14, line 13, before "token" insert --removable--.

In claim 19, line 9, before "token" insert --removable--.

In claim 85, line 6, after "monitor" insert -- and a removable token key for pairing the body electronics unit to the base station--.

In claim 99, line 8, before "token" insert --removable--.

Cancel claims 21, 24, 25, 27, and 66-68, and 71, 73, 76-80.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest utilizing a removable token key to pair or radio frequency link the body electronics unit and the base station so that a physical connection of the units to be paired is not required, in combination with the other elements in the claims.

Art Unit: 3762

The prior art made of record and not relied upon is considered pertinent to the applicant's disclosure. Segalowitz (US 5,307,818) teaches an electrocardiographic and monitoring system in which the physical wires between the patient and the electrocardiograph or monitor are eliminated, but fails to teach the incorporation of the removable token key.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
